Summary

Business & Information Security Master's student with hands-on experience in compliance support, policy documentation, and monitoring of flagged activity, plus a focus on process automation. Comfortable across Microsoft Office and fluent in English. Keen to apply governance and risk skills in a regulated environment. Seeking a Working Student role in Compliance / IT Governance.

Skills

Governance, Risk & Compliance: ISO 27001, NIST CSF, GDPR, policy & procedure documentation, controls monitoring, audit support
Monitoring & Analysis: reviewing system flags and alerts, risk assessments, anomaly detection, case documentation, remediation tracking
Process Automation: Python, PowerShell, workflow automation, scripting
Tools: MS Excel, MS PowerPoint, MS Office, SQL

Experience

- Compliance & Awareness Intern**
Example Security Foundation
• Delivered security-awareness training to 120+ staff, achieving a 90% certification pass rate.
• Maintained policy and training documentation, keeping records audit-ready across two quarters.
• Mapped awareness content to ISO 27001 controls so non-specialist staff could follow governance requirements.
- Research Analyst (Working Student)**
Example Analytics Lab
• Monitored activity across 30+ data sources, reviewing flags and escalating policy exceptions.
• Tracked remediation items to closure on schedule and documented outcomes for follow-up.
• Prepared Excel reports and dashboards for the leadership team, cutting manual reporting time by 40%.

Apr 2024 – Oct 2024
Berlin, Germany

Jul 2023 – Mar 2024
Munich, Germany

Projects

- Compliance Monitoring Homelab | Python, REST API**
- Built a Python workflow that monitored simulated activity and flagged suspicious events automatically.
 - Scored risk and mapped cases to playbook logic, producing response recommendations.
- Log Monitoring & Detection Lab | Wazuh, Ubuntu, VirtualBox**
- Deployed a Wazuh monitoring platform and onboarded a host for centralised log collection and alerting.
 - Configured File Integrity Monitoring to detect 100+ unauthorised file changes from a central dashboard.

Education

- Example University of Applied Sciences**
MSc, Business & Information Security
- Expected Oct 2026**
Berlin, Germany
- Example State University**
B.Sc, Information Technology
 - GPA 3.6/4.0.
- Aug 2019 – Jun 2023**
Example City

Certifications

Microsoft SC-900 • Google Cybersecurity Certificate (Coursera) • ISO/IEC 27001 Information Security Associate • CompTIA Security+ (in progress)
